

Heritage Christian Stables  
*Operated by Heritage Christian Services*

Dear Participant,

Welcome! Thank you for your interest in lessons at Heritage Christian Stables. Attached you will find the mandatory paperwork that must be completed to enroll. For new riders, once we receive the paperwork, we will schedule an evaluation to ensure that we can safely accommodate you in our program, recommend the proper class, develop goals, and create good participant/horse/volunteer teams. All forms must be updated annually and returned to Heritage Christian Stables January 1<sup>st</sup>. Please keep information pages for future reference.

**Mail Completed Forms to:**

**Heritage Christian Stables**

**P.O. Box 200**

**Webster, NY 14580**

**Fax to: 585-872-4847**

**Emailed to: [stablesrider@heritagechristianstables.org](mailto:stablesrider@heritagechristianstables.org)**

**Enrollment**

Participants are scheduled in compatible groups according to the lesson schedule. If Heritage Christian Stables is unable to accommodate a participant that has been evaluated and accepted into the program, the participant will be placed on a wait list until an appropriate time slot becomes available. Participants will be accommodated according to compatibility, time availability, and horse usage.

**Cost**

Our **lesson fee for 2023 is \$45.00** for a one-hour lesson with three or more participants, a 45- minute lesson with two participants or one half-hour private lesson with one participant. The fee is payable by cash or check at the time of the lesson. If financial assistance is needed, please request a scholarship application.

**Clothing & Accessories**

All participants must wear an ASTM-SEI approved helmet manufactured within 5 years while participating in lessons. Heritage Christian Stables has riding helmets available, though we encourage everyone to have their own when possible. Long pants and hard soled shoes with heels are preferred for independent riders, but sneakers are acceptable for non-independent riding. Proper footwear is required at the stables; shoes that expose feet (crocs, sandals, flip flops) are unsafe and will result in ineligibility to ride. Long hair may need to be tied back and any dangling jewelry, or extra-long jackets might need to be removed.

**Food**

No gum or candy is allowed as they can pose a choking hazard.

**\*Heritage Christian Stables is located at 1103 Salt Road, Webster, NY 14580\***

### **Heritage Christian Stables Cancellation Policy**

To ensure the best possible service to our participants, volunteers, and staff, any schedule changes from the rider must be expressed as soon as possible. Any changes in the lesson schedule must be made in writing and presented to the riding instructor or sent in an email to [stablesrider@heriagechristianstables.org](mailto:stablesrider@heriagechristianstables.org) at least 24 hours prior to the start of the lesson in non-emergency situations. Any participant showing up 15 or more minutes late to their scheduled lesson time will be considered a cancellation. Participants must be accompanied by guardian/staff while at stables.

Any changes after 24 hours prior to the lesson will result in the complete payment of the lesson. Continual no-shows and unexcused absences will result in the loss of the participants lesson time slot. If Heritage Christian Stables cancels a lesson, a make-up credit will be given for that change.

Please note that for self-direction participants, missed lessons cannot be billed through self-direction funds. The participant will be responsible for the missed lesson payment.

**Liability Release**

I/my child would like to participate in the inclusive horsemanship program at Heritage Christian Stables. I acknowledge the risks and potential for risks of engaging in horseback riding activities as well as activities in the close proximity to horses, however I feel that the possible benefits to me/ my child are greater than the risks assumed. I hereby, intending to be legally bound, my heirs and assigns, executors and/or administrators, waive and release forever all claims for damages against Heritage Christian Stables, a program of Heritage Christian Services, its instructors, volunteers, and/or employees for all injuries and/or losses that I/my child may sustain while participating in activities at Heritage Christian Stables liable in the event of exposure or contraction of such.

### **Information Concerning the Therapeutic and Equine Assisted Horsemanship Program**

**Therapeutic and Equine Assisted Horsemanship** describes equine activities organized and taught by knowledgeable and skilled instructors to people with disabilities or diverse needs. Students progress in equestrian skill while improving their cognitive, physical, emotional, social, and behavioral skills.

#### **The Benefits of Therapeutic Horseback Riding and Equine Assisted Horsemanship**

Physically, therapeutic horseback riding and assisted horsemanship can improve coordination and help normalize muscle tone. It can help improve posture and increase functional range of motion, muscular strength, and flexibility. Perceptual and sensory motor skills may also improve. Psychological benefits include improved motivation, self-esteem, and confidence. Therapeutic horseback riding and equine assisted horsemanship enhances the development of cognitive skills and allows the participant to improve socialization and teamwork skills.

#### **Qualifications to Participate in Therapeutic Horseback Riding and Equine Assisted Horsemanship**

- Participants must be at least four years old
- Meets the current horse weigh requirements (200 lbs. maximum for balanced participants).
- Participants have appropriate behavior to maintain safety

#### **The following conditions are contraindicated for Therapeutic Horseback Riding and Equine Assisted Horsemanship**

- Structural scoliosis greater than 30 degrees
- Uncontrolled seizures
- Evidence for Atlantoaxial Instability (See additional information)
- Tethered Cord or Chiari II Malformation
- Indwelling catheter
- Spinal Cord Injury above a T-6
- Hemophilia

#### **The following conditions MAY BE contraindicated for Therapeutic Horseback Riding and Equine Assisted Horsemanship**

- Hip subluxation, dislocation, or degeneration
- Osteoporosis
- Osteogenesis Imperfecta, lordosis, or kyphosis
- Recent Surgeries
- Diabetes
- Recurrent pathological fractures
- Spina Bifida
- Spinal fusions, spinal instability, spinal stabilization devices
- Varicose Veins

Heritage Christian Stables may be unable to accommodate a potential participant due to resources available and program capabilities (i.e. horses, equipment, instructors, volunteers, and capabilities). Participants accepted into the program are re-evaluated on a regular basis and may become ineligible.

If you have any questions as to whether you qualify for the Therapeutic Horsemanship Program, please contact Heritage Christian Stables at 585- 872-2540 or [www.heritagechristianstables.org](http://www.heritagechristianstables.org)

## Information Concerning Participants with Down Syndrome and Atlantoaxial Instability

### Atlantoaxial Instability (AAI) in Down Syndrome

Atlantoaxial instability (AAI) has been described as an instability, subluxation or dislocation of the joint between the first and second cervical vertebrae (atlantoaxial joint). Instability of the joint is generally due to poor muscle tone and ligament laxity that is common with Down Syndrome and less common with other disorders. The problems that may arise with a lax joint is that there can be pressure on the spinal cord, resulting in neurologic changes (see listing below). This is symptomatic AAI and will always require evaluation by an MD and restriction of high-risk activities such as horseback riding and driving. This is a potentially paralyzing or life-threatening condition. Incidence of non-symptomatic AAI among persons with Down Syndrome is reported to be 10 to 20 percent. Symptomatic AAI is much less frequently seen. For a child two- to four years of age, please refer to the section on Age-Related Considerations, and always consult with the participants pediatrician. A group of individuals with Down Syndrome have been reported to demonstrate neurologic abnormalities with no visual AAI. The cause of these abnormal neurologic signs is unclear. **Neurologic signs always supersede radiographs and the presence of the neurologic disorder must be evaluated by a physician and is a contraindication for mounted equine activities.**

**PLEASE NOTE:** Falling is not the only potential for injury. For a participant with low muscle tone and laxity in the joints of the neck, the repeated movement of the equine or a sudden quick movement of the equine such as a spook or misstep could be enough to cause a problem. Please also see the section on Head/Neck Control.

**Professional Association of Therapeutic Horsemanship International requires that all participants with Down Syndrome have the following prior to starting mounted activities:**

- A) A yearly medical examination including a complete neurologic exam that shows no evidence of AAI.
- B) Certification by a physician that an examination did not reveal atlantoaxial instability or focal neurologic disorder.

### Atlantoaxial Instability/ Neurologic Symptoms

#### Change of Head Control

- Torticollis/ Wry Neck
- Head Tilt
- Stiff Neck

#### Change in Gait

- Progressive clumsiness
- Toe walking or scissoring
- Falling
- Posturing

#### Change of Hand Control

- Progressive Weakness
- Fisting
- Change of dominant hand
- Increasing tremor

#### Change of Bladder Function

#### Change of Bowel Function

**Precaution:** Monitor for neurologic symptoms. Report changes to the family/ physician and discontinue until cleared by a physician.
